QubiQ.

With its beautiful design, the QubiQ aquarium fits into any interior. The QubiQ is designed for ease of use and suitable for all fish keepers. Ideal for people who are looking for a beautiful aquarium and want to spend little time on maintenance. The modern filter system of the QubiQ keeps the aquarium water clean, is easy in use and ensures less water changes.

Biological filter.

Biological filter white Crystal Clear cartridge, for clean and healthy water. Easy maintenance, just change the cartridge.

Smart cable support.

Cables are hidden through smart cable support on the back.

Lighting.

The QubiQ 30 and 60 Pro is equipped with 2-Colour lighting (white and blue) in 3 steps dimmable.

Safe for small fish.

A grid and lid prevent the small fish from entering the filter.

Glass cover.

A stylish glass cover prevents fish from jumping out of the aquarium.

Filter housing.

Suitable for tropical fish due to integrated space for optional heater.

PAR value of the lighting?

The table opposite shows the PAR value of the lighting unit of the aquarium. All QubiQ Pro aquariums are now equipped with renewed lighting units with a very high light output. This makes the aquariums also suitable for placing plants with a high light requirement.

The plant label indicates the light requirement of the plant.

QubiQ 30.

The alternative to a goldfish bowl

The QubiQ aquarium is the alternative to fish bowls and tanks without a filter. In a water without filter and circulation, the water becomes polluted and the fish live in an unhealthy environment. The QubiQ's integrated filter ensures clear and healthy water. The QubiQ is stylish in any interior and comes with a smart cable guide system at the back and a glass cover pane that prevents fish from jumping out of the aquarium.

Design aquarium with convenient built-in biological filter with Crystal Clear cartridge ensures clean and healthy water.

The QubiQ filter cartridge can be easily changed, making maintenance simple and taking very little time.

Capacity 30 litres, available in white and black, replacement cartridges are available from your dealer.

QubiQ 30 Pro.

Suitable for Advanced ★★★ plants due to good lighting. Perfect for keeping small fish and shrimps.

The Superfish QubiQ 30 Pro is designed for ease of use and ideal for those looking for a beautiful aquarium but want to spend little time on maintenance. The modern filter system keeps the aquarium water clean and features space for the aquarium heater, which can thus be mounted safely and out of sight. The QubiQ is stylish in any interior and comes complete with built-in filter, long-lasting safe LED lighting, a smart cable guide system at the back and a glass cover pane that prevents fish from jumping out of the aquarium.

Design aquarium with powerful LED lighting with a high PAR value (PAR is the light plants use for photosynthesis) for optimal plant growth. The lighting has a sunrise function, and 2 colours of light, white and blue, which is dimmable in 3 steps.

The Biological Filter with Crystal Clear cartridge ensures clean and healthy water, is easy to use and reduces the need for water changes. The aquarium is also safe for shrimps and small fish due to the fine grid on the filter.

Home.

SuperFish Home aquariums make an eye catching addition to any home or office environment. These modern plug and play aquariums are very easy to install and maintain. They include a built in filter system as well as a two colour (white & blue) energy efficient sunrise LED light. The light simulates a natural sunrise, by intensifying the light level slowly to a maximum over a 30 second period.

Remote control.

Dimmable LED lighting, operated with remote control (home 65 & 185) or touch keys, is also possible to connect a timer (not included).

Filter.

The built-in Aqua-Flow internal filter is easy use and to maintain. The filter box has extra space which can be used for a SuperFish heater if required.

Glass cover.

A stylish glass cover prevents fish from jumping out of the aquarium.

Cable tray.

A cable tray behind the cover of the Home keeps the filter and heater (if used) cables out of sight.

Filter Cartridge or Crystal Clear Cartridge

The standard cartridge of the Aqua-Flow filter removes organic dirt, chemicals and dyes from the water.

The Crystal Clear cartridge also removes ammonia and limited high Nitrate and Phosphate levels. The result is crystal clear, healthy water and less algae growth.

Cover with integrated lighting

Two colour energy efficient LED Sunrise light (white and blue). The light simulates a natural sunrise, by intensifying the light level slowly to a maximum over a 30 second period.

PAR value of the lighting?

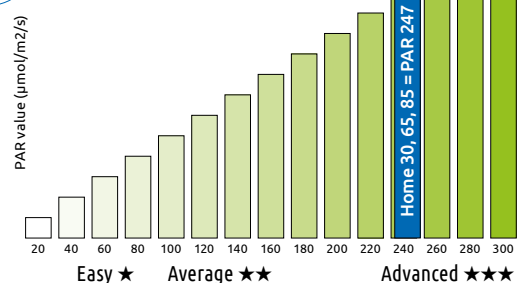

The table opposite shows the PAR value of the lighting unit of the aquarium. All Home aquariums are now equipped with renewed lighting units with a very high light output. This makes the aquariums also suitable for placing plants with a high light requirement.

The plant label indicates the light requirement of the plant.

Scaper LED.

LED lighting for excellent plant growth. Designed for open and closed aquariums.

LED Controller.

Controller with dimming, sunrise and sunset function

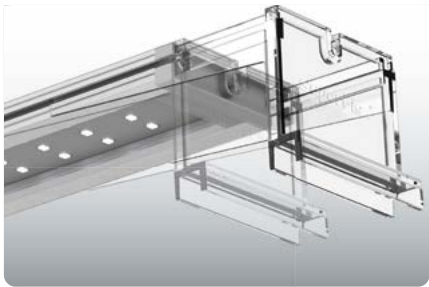

- Automatically switches the light on and off at the times of your choice. Factory setting: light on at 7 a.m. and off at 9 p.m. 21:00. Time setting is easy to personalise. The controller simulates the natural sunrise and sunset, the light starts slowly in 30 sec. or 10 min. from off to full strength and vice versa at sunset.

Our new LED controller with dimmer function can also be used for: Start aquariums, Panorama aquariums, Slim LEDs and the Aqua LED Spot

Open Aquarium.

Supplied with brackets for an open aquarium

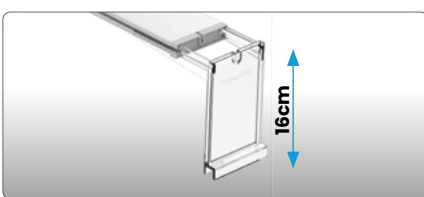

Closed aquarium.

Supplied with brackets for a closed aquarium.

Waterproof.

Waterproof IP 68. = Waterproof for a longer time than 30 minutes and/or deeper than 1 metre.

Scaper LED Support.

16 cm long supports to raise the Scaper LED light higher above the aquarium, this is especially desirable in open aquariums where plants grow out of the water.

1 pack contains 2 brackets 16 cm long for the Scaper LED lighting

SF SCAPER LED BRACKET 16 CM 2X.

Scaper LED.

The Scaper LED lighting has been developed for optimal plant growth & aquascaping. This modern lighting in aluminium housing has a very high light output. The sleek design is made for open aquariums, but the clips provided also allow the Scaper LED to be used in hooded aquariums.

The Scaper LED lighting is of high quality and has a PAR of 269 which guarantees optimal plant growth.

Includes space-saving Hang-on Filter, which is very easy to maintain with linkable and replaceable filter cartridges

Lighting for open and closed aquariums.

- Designed for perfect plant growth and Aquascaping
- Complete set including 200 cm cable, switch, adapter, extendable supports for an open aquarium and clips for a closed aquarium
- Maximum glass thickness of 10 mm
- Safe: low voltage (20 Volts DC) and watertight (IP68)
- Can be operated by the LED Controller (dimming + switching on/off) or a timer
- 2-year warranty

Scaper LED 64.

24W LED, length 44.5 cm, suitable for aquariums 45-64 cm wide, number of LEDs 48.

Retro LED

Simply replace your existing fluorescent lighting by this energy-efficient LED lighting!

Advantages of Retro LED lighting:

- Plug and play, seamless upgrade.
 - Fits T8 and T5 hoods seamlessly without any modification of the aquarium.
 - Also suitable as J-Line T5 replacement.
 - Complete kit including ballast and waterproof end caps.
 - Safe with low voltage.
- Available in 2 colours, Bright (daylight) and Combi.
- Save up to 50% on your electricity costs.
 - Long life span, 30,000 burning hours.

Slim LED.

Smart design LED lighting for open and closed aquariums, designed for perfect plant growth and Aqua Scaping. Ultra-safe due to low voltage and IP67 waterproof design. Long lifespan of at least 30,000 burning hours.

High PAR (light output) for perfect plant growth and aquascaping. PAR means Photo Synthetic Radiation, this is the light radiation that causes aquarium plants to grow, the higher the PAR, the better the growth.

Can be mounted in various ways, with the brackets on the aquarium, with clips in the light hood, or suspended with the supplied cables above the aquarium!

Slim LED 45/28W.

Length 45 cm, suitable for aquariums 48-66 cm wide, 24W. PAR 230 ($\mu\text{mol}/\text{m}^2/\text{s}$), Kelvin 7300, Lumen 1492, CRI 96 measured at 20 cm distance.

Scraper Blades.

Knives for the Superfish stainless steel window scraper

SF SCRAPER SPARE BLADES 10X.

S.R.P. €3,99

Art. no.: A4060160

Feeding Plate.

Feeding plate, by feeding on this plate you can see what the fish or shrimp are eating and prevent food residue throughout the aquarium. You will also prevent other aquarium inhabitants from eating the food for the shrimp or specific fish species before it reaches them.

Attach the feeding plate to the aquarium wall with the suction cup provided, a little above the bottom, perfect for shrimps and fish that need specific feeding.

SF SCAPERS FEEDING PLATE.

S.R.P. €4,99

Art. no.: A4060205

Feeding Tube.

Glass feeding tube with feeding bowl for target feeder. The food falls through the glass tube straight into the bowl.

Ideal for feeding shrimps and bottom fish that require sinking food, also available with a 45-centimetre-long tube for larger aquariums.

Direct feeding without the food swirling through the water and being eaten by the other fish.

30 cm long Glass tube complete with bowl, including 2 suction cups for easy mounting

SF SCAPERS FEEDING TUBE 30CM.

S.R.P. €8,99

Art. no.: A4060207

45 cm long Glass tube complete with bowl, including 2 suction cups for easy mounting

Scapers Stainless Steel in & outlet kit.

Stainless steel intake and outlet pipe (lily pipe) for the aquarium, stylish, robust and unbreakable and therefore much more convenient to use than glass lily pipes. The wide sieve at the bottom of the inlet pipe allows water to be drawn in over a large surface area and discharged to the external filter. The outlet pipe ensures good distribution and circulation of the return water to the aquarium. Supplied complete with mounting clips.

This stainless steel set is easy to clean, unlike glassware pipes which are continuously dirty due to fouling in the pipe. In addition, stainless steel is unbreakable.

Scapers filter inlet and outlet pipes, made of shiny stainless steel for a luxurious look and finish

Inlet and outlet pipe, length 40 cm, diameter 12 mm for aquarium hose 12/16 mm

Inlet and outlet pipe, length 40 cm, diameter 16 mm for aquarium hose 16/22 mm

Hang on Filter.

Space-saving external aquarium filter for cold-water and tropical aquariums. Suspended mounting of the biological filter at the back of the aquarium saves space in the aquarium. This filter ensures optimal water circulation by drawing in water at the bottom of the aquarium and returning it above the water level after cleaning, this waterfall outlet also ensures oxygen-rich water.

External hang on filter for superior water quality through mechanical, chemical and biological filtration. The integrated skimmer also ensures a clean water surface.

The Hang on Filter 50 contains 1 Dual-Action filter cartridge with Micro-Filter Mats and Activated Carbon for clear water. Easy cleaning thanks to the easy-to-remove replaceable filter cartridges.

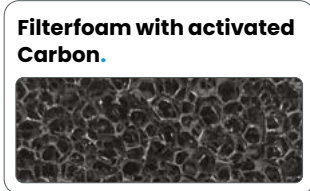

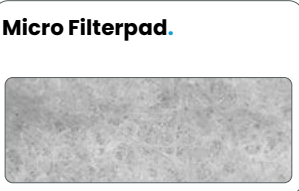

Consumption 5W, pump capacity 350 L/h, for aquariums up to 50 litres capacity. Change filter cartridge once a month for optimal operation.

X-Pro filters.

For a large aquarium it's advisable to use an External filter. Because an external filter offers a much larger filter media area than an internal filter and easier cleaning. We offer the X-Pro External Filter. A high performance filter with Multi-Step filtration system for crystal clear and healthy water!

Unique properties:

- One pump prime button for an easy and quick start of the filter.
- All-in-one water shut-off valve with 360* rotating tube connectors.
- Powerful filter pump, maintaining high flow even under pressure.
- Colour coded hose connectors for easy installation.
- Supplied complete with high quality hoses, pipes & connecting material.
- Large filter media volume, offering maximum filter performance.
- Supplied with high quality filter media: Activated Carbon, CrystalMax & sponges.
- Compact design, will easily fit in an aquarium cabinet.
- Lightweight for easier maintenance and handling.
- Unique 24 hour service guarantee (during the 3 years warranty period)!

* Not applicable to the X-Pro 400

Your valuable fish need filtrated water, in case of trouble your SuperFish dealer will repair your X-Pro filter within 24 hours or exchange the filter for a new one!*

*Only during the opening hours of your SuperFish dealer.
For exact terms, see the manual or ask your dealer.

X-Pro 400.

The SuperFish X-pro 400 is a powerful external filter with a high biological filtration capacity and unique 24-hour service during the 3-year guarantee period. The filter comes complete with filter media, hoses, pipes, connecting materials and surface skimmer. The X Pro is user-friendly thanks to its convenient Quick Start button; one pump starts the filter, the all-in-one valve with rotatable hose connection and handle for easier maintenance. The filter hoses can be rotated 360 degrees which facilitates filter placement.

Multi-Step filtration for crystal-clear and healthy water! The 2 compartments in the filter are filled with high-quality filter media for optimal biological filtration.

3-year warranty with unique 24-hour service, during which period, in case of unexpected problems with the filter, you can visit your dealer within 24 hours who will repair the filter free of charge or exchange it if this is not possible. So your aquarium and fish will never be without a filter for long in case of malfunction.

Power consumption 5W, pump capacity 400 L/h for aquariums up to 100 litres. Filter pot capacity 5.8L, hose size 12/16 mm

X-Pro 1500.

The SuperFish X-pro 1500 is a powerful external filter with a high biological filtration capacity and unique 24-hour service during the 3-year guarantee period. The filter comes complete with filter media, hoses, pipes, connecting materials and surface skimmer. The X Pro is user-friendly thanks to its convenient Quick Start button; one pump starts the filter, the all-in-one valve with rotatable hose connection and handle for easier maintenance. The filter hoses can be rotated 360 degrees which facilitates filter placement.

Multi-Step filtration for crystal-clear and healthy water! The 3 compartments in the filter are filled with high-quality filter media: Activated Carbon, CrystalMax, Bio Balls and filter foam for optimal biological filtration.

3-year warranty with unique 24-hour service, during which period, in case of unexpected problems with the filter, you can visit your dealer within 24 hours who will repair the filter free of charge or exchange it if this is not possible. So your aquarium and fish will never be without a filter for long in case of malfunction.

Power consumption 19W, pump capacity 1500 L/h for aquariums up to 400 litres. Filter pot capacity 12.5L, hose size 19/24 mm

SUPERFISH X PRO 1500 (400L).

High quality accessories included.

Your valuable fish need filtrated water, in case of trouble your SuperFish dealer will repair your X-Pro filter within 24 hours or exchange the filter for a new one!*

*Only during the opening hours of your SuperFish dealer. For exact terms, see the manual or ask your dealer.

Integrated UVC.

In addition to all the known advantages of the X-Pro Filters, the X-Pro 2000 UV has an integrated UV lamp.

Protects against harmful bacteria.

Filter foam-set X-Pro.

Replacement foam set existing for Superfish X-Pro filters. Available in five different sizes for X-Pro 400, 1000, 1500, 2000 and 2000 UV.

Consists of 2 fine (white) and 1 coarse (blue) filter mats

3 replacement sponges, our recommendation is to replace 1 sponge every month, this will maintain the bacterial life in the remaining sponges.

AquaClear UVC.

For a clear and healthy aquarium

Aqua Clear UVC 9W.

This complete UVC system reduces algae growth and ensures crystal clear water in freshwater and marine aquariums. This UVC unit comes complete with UV lamp, multi-step hose connections, wall brackets and screws and a 2-metre cable.

UV disinfection for the aquarium, with 9W UV lamp, space-saving due to low installation length of 32 cm, safe with TÜV-GS approval and safety switch.

The UV radiation combats pathogenic bacteria and germs to reduce the risk of infections and algae growth. This has no effect on the water values and does not harm the filter's purification bacteria.

Power consumption 9W, max. flow volume 1,200 L/h, installation length 32 cm, hose connections: 12/16/20 mm suitable for freshwater and seawater aquariums up to 300 litres

SUPERFISH AQUACLEAR UV 9W.

Dosing Pump One.

Automatic and precise dosing of liquids

Dosing Pump One.

The Superfish Dosing pump One allows you to accurately and automatically add liquids to your aquarium or pond at desired times up to 24 times a day. Easy to install and set up through simple programming and calibration. The many options make this a very convenient and affordable dosing device.

Alarm function, should there be insufficient liquid, you will automatically receive a signal/alarm so you can refill in time.

Acid and alkali-resistant, suitable for fresh and sea water, ponds and terrariums, supplied complete with hose coupling, non-return valve and dosing tube,

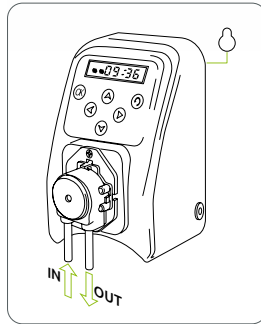

With adjustable dosing interval (between 1 and 72 hours) and dosing quantity setting (1-9999 ml).

SUPERFISH DOSING PUMP ONE.

Pro Media 3D 1000 ml.

The design of the ceramic 3D filter media provides a hugely effective biological bacteria surface area of 1850 m² per litre of filter volume, while maintaining a high water flow rate.

3D Pro Media ensures the highest possible filter performance per litre of filter volume!

Removes dyes, contaminants and ammonia from aquarium or pond water and helps reduce high Nitrate and Phosphate levels

Contents 1000 ml, suitable for freshwater and saltwater aquariums.

SUPERFISH PRO MEDIA 3D 1000 ML.

S.R.P.

€12,99

Art. no.: A8040650

8 715897 336898

Pro Media Bio Bead 1000 ml.

The patented design of the Pro Media Bio Beads provides double filtration, both oxygenated and deoxygenated. The ceramic filter ball has a biological cavity inside, in this cavity there is little oxygen and anaerobic bacteria can live.

Anaerobic bacteria grow in the hollow of the filterbead, these bacteria only grow in an oxygen-poor environment and break down nitrate.

Double filtration with areobe and anearobe filter bacteria reduces ammonia, nitrite and nitrate levels.

Contents 1000 ml, suitable for freshwater and saltwater aquariums.

SUPERFISH PRO MEDIA BIO BEAD 1000 ML.

Arcadia Polyfilter.

The Arcadia Polyfilter directly removes nitrite, nitrate, ammonia, phosphates (the main cause of algae in the aquarium), toxic metals, chemicals and proteins and amino acids from the aquarium water. Polyfilter removes all mentioned unwanted products, but does NOT remove desired trace elements and has no softening effect on the water, therefore Polyfilter is suitable for freshwater and marine aquariums!

Place the Polyfilter in the aquarium filter, it is easy to cut to size, also very suitable for small aquariums, goldfish bowls or Betta aquariums, place a 3x3 cm piece of mat somewhere in the water so it can absorb unwanted chemicals.

The Polyfilter mat changes colour as these pollutants are removed, copper = blue, ammonia = green/yellow, iron = orange, aluminium = red, lead = yellow and heavy organic pollution = black, this way you can see which pollutants have been absorbed.

Size 20x10 cm for freshwater and marine aquariums up to 180 litres, please read the instructions for use. Replace the mat when it turns black, this is the indication that the mat is saturated and should be replaced.

ARCADIA POLYFILTER 20X10 CM.

S.R.P.

€24,99

Art. no.: A8040550

Arcadia Polyfilter XL.

The Arcadia Polyfilter directly removes nitrite, nitrate, ammonia, phosphates (the main cause of algae in the aquarium), toxic metals, chemicals and proteins and amino acids from the aquarium water. Polyfilter removes all mentioned unwanted products, but does NOT remove desired trace elements and has no softening effect on the water, therefore Polyfilter is suitable for freshwater and marine aquariums!

Large pack for breeders and large aquariums. Insert the Poly-filter into the aquarium filter, it is easy to cut to size.

The Polyfilter mat changes colour as these pollutants are removed, copper = blue, ammonia = green/yellow, iron = orange, aluminium = red, lead = yellow and heavy organic pollution = black, this way you can see which pollutants have been absorbed.

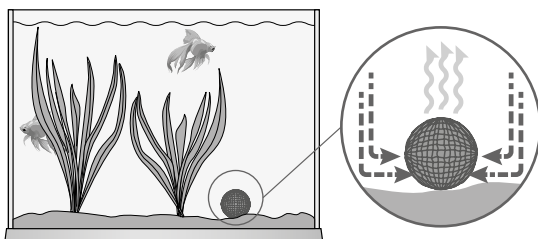

Size 30x30 cm for freshwater and marine aquariums up to 1000 litres, please read the instructions for use. Replace the mat when it turns black, this is the indication that the mat is saturated and must be replaced.

ARCADIA POLYFILTER XL 30X30 CM.

Clean Ball.

The Superfish Clean Ball removes nitrate, ammonia and reduces algae growth in small aquariums. Place this decorative ball in your aquarium and it will make green and cloudy water nice and clear again.

Decorative filter ball for small aquariums, ideal tool for maintaining healthy water quality

Contains Crystal Clear Media, which absorbs dyes, nitrate and Ammonia and reduces algae growth.

Use 1 ball per up to 25 litres of water, the Clean Ball works for 1 month and should be replaced after that period.

SUPERFISH CLEAN BALL.

S.R.P.

€5,79

Art. no.: A8040495

Smart-Air, the quiet air pump.

The Smart-Air is the world's most innovative and quiet air pump. Now you can enjoy your aquarium hobby without annoying noise as the noise level is only 38 dB. The Smart-Air 1 has one outlet, the Smart-Air 2 has two outlets. Both air pumps are particularly energy-efficient.

The world's quietest air pump, maintenance-free and energy-efficient.

The Smart-Air is easy to install on the aquarium due to the integrated suction cup. Due to its construction, the membrane cannot be replaced (lifespan approx. 1 year).

Smart Air with 1 outlet, consumption only 1W, airflow 19 L/h, 0.011 MPA suitable for aquariums up to 50 litres

Smart Air with 2 outlet, consumption only 1W, airflow 38 L/h, 0.011 MPA suitable for aquariums up to 100 litres

Air-Pad Silencer.

Silencer for air pumps. An air pump works with a diaphragm that is vibrated, this vibration is accompanied by a soft humming sound. Despite damping rubber feet, an annoying resonance can occur. The Air Pad prevents this resonance and is sound-insulating.

Sound-absorbing foam housing, prevents annoying resonances

Available in 2 sizes: the Air Pad 1 is suitable for the Air-Flow mini and 1, the Air Pad 2 is custom-made for the Air-Flow 2.

Suitable for Airflow mini and Airflow 1 and other brands of small air pumps

SF AIR PAD 1(SILENCER).

8 715897 203688

Bio Air Disk.

Compact, innovative air filter for aquariums, you connect the Bio Air Disk to an air pump, the high-quality filter media cleans the water and the air stone in the filter provides additional oxygen and enhances the siphoning effect.

Excrement and suspended particles are filtered out of the water by the sponge and the aerobic bacteria in the ceramic filter media convert the harmful ammonia (NH₃) into nitrite (NO₂) and nitrate (NO₃).

Handy air filter with 2 types of media, ceramic bio beads for biological filtration and filter sponge for mechanical filtration

Bio Air Disk S, suitable for aquariums up to 30 litres, air pump recommendation Superfish Airflow 1

Bio Air Disk L, suitable for aquariums up to 60 litres, air pump recommendation Superfish Airflow 1

SF BIO AIR DISK S.

Filter media space.

Integrated biological filter media compartment (filter media not included) for advanced filter performance.

Air pump.

An air pump is required and we recommend the SuperFish Air-Flow 1 with an output of 100 L/h. Always place the air pump above the water level or use a non-return valve to prevent the water from entering the air pump

Air Sponge Filter.

Simple but highly effective biological filter, you connect the filter to an air pump. Useful bacteria attach to the sponge and provide biological filtration.

Easy to connect to an air pump

Very suitable for breeding tanks and shrimps

For small aquariums up to 50 litres

SF AIR FILTER.

S.R.P.
€5,79

Art. no.: A7010040

Moving Bed Filters S.

Moving bed filter, works on an air filter, provides highly effective filtration and oxygenation in the aquarium. with the highest efficiency of aerobic bacteria, ensures clean and healthy aquarium water! No mechanical parts, making it 100% safe for the smallest aquarium inhabitants. Easy to connect to an air pump.

Self-cleaning moving bed filter for optimum filtration, resulting in clean and oxygen-rich aquarium water

Ideal as an additional filter in densely populated aquariums, the high oxygen levels enhance the growth of aerobic bacteria, which attach to the micro filter media and convert the harmful ammonia (NH₃) into nitrite (NO₂) and nitrate (NO₃).

Moving Bed Filter S, flow rate 100 L/h air pump recommendation Superfish Airflow 1

Air pump.

An air pump is required and we recommend the SuperFish Air-Flow 1 with an output of 100 L/h. Always place the air pump above the water level or use a non-return valve to prevent the water from entering the air pump

Included.

Filter media space.

Micro floating bed media included

Air-Stones.

SuperFish air stones connect to an air pump, these air stones create tiny bubbles of air that add oxygen to the aquarium water. Superfish air stones are available in various sizes, shapes and types for small to large aquariums.

Connect to an air hose size 4/6mm, recommended Superfish airflow mini or airflow 1 air pump

Air stones clog up over time with dirt and deposits, causing your air pump to malfunction. You should therefore replace the air stones every year.

Fish Catch Bowl.

Plastic sticky trap for easy and gentle catching of fish, shrimps and invertebrates in the aquarium.

Fishing with a net can damage the animals, with the catch clock the fish is constantly transported underwater and the sensitive scales, fins and protrusions do not come into contact with the net.

The transparent bell is inserted into the water, pushing the air up through the hollow handle. After catching it, close the opening at the end of the handle so the water cannot drain.

Dimensions: length approx. 40 cm, Ø approx. 12 cm

Safe for your fish and aquarium ecosystem. Before placing in the aquarium, rinse thoroughly with tap water. Never clean with chemicals, this will harm your fish, only clean with fresh tap water.

Weird Waters is a series full of adventure and magic for little fish that are eager to grow up. With this decoration line from SuperFish, bring the imaginative story of BZ, I.M. Tiger and Jam close by letting them stay in your aquarium.

© Wayletta Productions.
All Rights Reserved.

Big adventures, little fish.

Weird Waters is a CGI animated fantasy series about three BFFs (best fish friends forever) on the freshwater adventure of a lifetime. Follow BZ and I.M. Tiger, two tropical fish who accidentally land in the deep end of a magical pond. They soon meet Jam, a new friend who sweeps them away on a series of unbelievable adventures full of hidden realms, crazy monsters, and ancient mysteries. Along the way, these friends will learn that growing up is the wildest ride of all! Weird Waters will be showing on the European TV networks in 2023, more information can be found at weirdwaters.com

Weird Waters BZ.

Weird Waters character BZ is a born adventurer who always lives in the moment. BZ is always looking for fun experiences and prefers not to be alone with his own thoughts, so he always surrounds himself with his BFFs. The Magic Pond is better than anything BZ ever dreamed of.

Dimensions 4,5x9,6x9,4 cm

WEIRD WATERS BZ.

€6,99

Art. no.: A4041200

8 715897 336410

Weird Waters Jam.

Weird Waters character Jam is the rebellious youngest sister of the three Tetras and challenges authority more than any other fish at the Blue Zoo. Jam is always looking ahead and can't wait to grow up, so she gets her powers and is taken seriously. The Magic Pond is all she has ever known, but she knows everything about the place.

Dimensions 8x5,1x 9,3 cm

Underwater River.

Create the effect of a flowing river in your aquarium.

Underwater River.

A river in your aquarium, now that's cool! This Underwater River Deco gives the effect of a flowing river and comes with a decorative bridge. You connect the Deco Underwater River to an air pump, such as SuperFish Air-Flow 1 way (not included), to create air bubbles. The bubbles create the illusion of a flowing river.

The air bubbles create the illusion of a flowing river, and also increase oxygen levels in the aquarium water.

Supplied complete with acrylic transparent panel with suction cups, a decorative ceramic bridge and Flexi nozzle with 1.5 m air hose, check valve and two suction cups.

« INDEX

Cattapa Tubes.

Superfish Catappa bark tubes lower pH, enhance the colours of fish and shrimps, and work preventively against diseases in the aquarium. These tubes are also a natural hiding place and give the aquarium a natural look.

In the aquarium, the catappa tubes slowly break down and release tannins that turn the water brown, dampening the light and imitating the natural habitat of many fish and reducing stress.

Use: 1 tube 50-100l of water. The active ingredients are completely released after about 4 months.

Contents 3 Catappa tubes approximately 15-20 cm long.

CATTAPA TUBE 3 PCS.

S.R.P.
€11,99
Art. no.: A5010845

New.

Catappa Bark Tubes
3 pcs

- Lower the pH of the aquarium water
- Preventive against diseases of fish
- Enhance the colors of fish and shrimps
- Imitate the natural habitat of many fish
- Reduce stress

Bonsai Wood.

Bonsai Driftwood.

Unique miniature trees handmade from natural wood, a real eye-catcher in your aquarium and very suitable for Aquascaping. Available in many different models and sizes.

100% natural wood, the many details in the branches give a beautiful appearance and your fish will love it.

Attach mosses or plants to the bonsai, for example Anubias, Java moss or Echinodorus for an even more beautiful underwater world. Use Superfish aquarium glue for effortless gluing.

Deco poster.

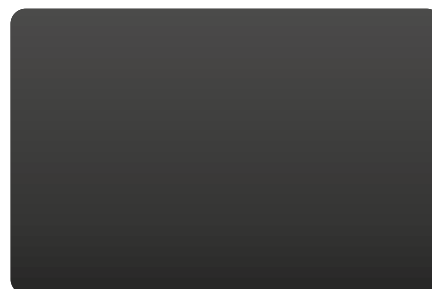

Poster back wall for the aquarium available with various images. Easy to cut or trim to the right size and attach to almost any aquarium. Available in the following sizes: 60x30 cm, 60x49 cm, 100x49 cm, 120x49 cm, 120x61 cm and 150x61 cm.

The poster mounts on the back wall of the aquarium, outside the aquarium and not in it, and is printed on two sides with a different photo on each side.

Use Superfish 3d poster gel to secure the poster to the glass, this boosts the 3d effect and you can easily remove or move the poster again

Deco poster.

Poster back wall for the aquarium available with various images. Easy to cut or trim to the right size and attach to almost any aquarium. Available in the following sizes: 60x30 cm, 60x49 cm, 100x49 cm, 120x49 cm, 120x61 cm and 150x61 cm.

The poster mounts on the back wall of the aquarium, outside the aquarium and not in it, and is printed on two sides with a different photo on each side.

Use Superfish 3d poster gel to secure the poster to the glass, this boosts the 3d effect and you can easily remove or move the poster again

Aqua Plant soil.

◀◀
INDEX

Plant Substrate.

Substrate soil for good plant growth in the aquarium, contains useful nutrients. The open structure ensures good water flow, for healthy roots and bacterial life.

Safe for fish and plant, pH, GH and KH neutral, you cover this nutrient substrate with a layer of aquarium gravel.

Advice, mix Superfish plant substrate with Aqua Plant nutrient medium 50/50 for optimal results!

Capacity 3.5L

SUPERFISH AQUA PLANT SUBSTRATE 3,5L.

S.R.P.

€8,99

Art. no.: A8050190

8 715897 272998

Nutrient Soil.

Nutrient soil for the aquarium, this soil contains all the important nutrients for good plant growth. Place this soil as the first layer in the aquarium.

Complete plant nutrient soil, contains K, Ca, Mg, P and Fe, safe for fish and plant and pH, GH and KH neutral, you cover the nutrient bottom with a layer of aquarium gravel.

Advice, mix Superfish plant substrate with Aqua Plant nutrient medium 50/50 for optimal results!

Capacity 3.5L
