Combi Clear

The one plug solution for the small pond. 4-in-1 underwater filter with pump, UVC, filter media and fountain nozzle. Easy and quick to commission, no complicated installation with hoses, cables and all kinds of connections. Place the Combi Clear on the bottom of the pond, plug in and the filter is operational!

Compact pond filter with built-in UVC, this ensures that your pond is crystal clear within 14 days. The water flow and head are adjustable and there is an additional connection for a waterfall. The stable base and large handle make placement in the pond easy.

The Combi Clear comes with activated carbon, CrystalMax and a sponge for optimal filtration and easy maintenance. Replacement media sets available from your dealer.

Suitable for ponds up to a 2,000 litre capacity. Energy-efficient and economical to run, including 10-metre cable and 2-year warranty.

Suitable for ponds up to a 4,000 litre capacity. Energy-efficient and economical to run, including 10-metre cable and 2-year warranty.

Suitable for ponds up to a 6,000 litre capacity. Energy-efficient and economical to run, including 10-metre cable and 2-year warranty.

The TopClear is a unique 3-step pond pressure filter. The filter foam provides mechanical filtration. Bacteria in the Bio-balls ensure biological purification and the built-in UVC provides algae control and disease prevention.

Convenient mounting because all connections are on the lid. The filter can be almost completely buried or concealed next to the pond, even placement below the water level is possible.

Unique features, the UV indicator in the hood allows you to see if the UV lamp is on. The Flow indicator shows the flow rate allowing you to see when the filter needs cleaning and the Auto Clean Wash allows for easy cleaning of the filter.

Built-in UVC

Built-in UVC, clarifies your pond water within a fortnight.

Auto Clean Wash

Auto Clean Wash, for easy cleaning of your filter.

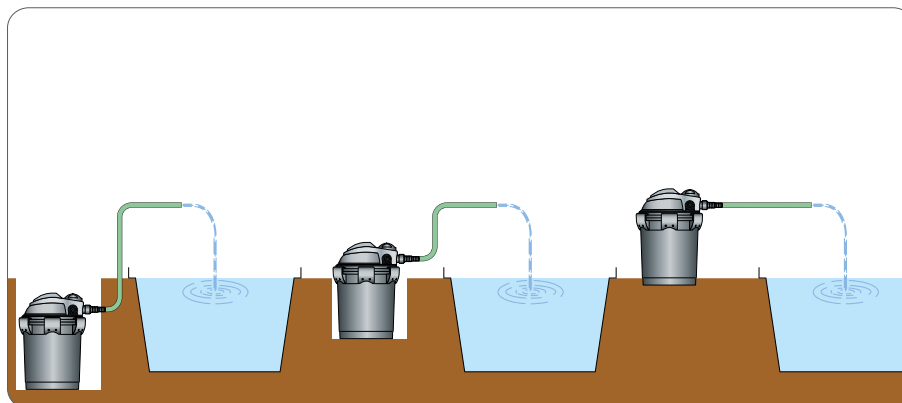

UV-indicator

With the UV indicator in the lid you can easily check whether the UV lamp is on.

Flow-indicator

The Flow indicator shows the flow rate, so you can see when the filter needs cleaning.

The TopClear Pro is a professional 2-in-1 Pond Pressure Filter with a large filter retention, a powerful 55W UVC and an automatic filter cleaning system. Suitable for ponds up to 36,000 litres.

Self-cleaning pond pressure filter for convenient installation and optimal filtration. Supplied with energy-efficient UVC time switch (24/12/0 hours). Allows you to set how many hours the UV lamp works, e.g. 12 hours in spring and autumn, 24 hours in summer, and 0 hours in winter, this saves energy at times when the UVC is not needed and prolongs the life of the UV lamp.

Optimum filtration through a large 75-litre filter chamber with 7 layers of filter foam (coarse/blue and fine/yellow) for mechanical filtration and Bio-Balls for biological filtration. The dirt indicator in the lid indicates when the filter needs cleaning. Easy cleaning with the automatic cleaning system, the filter foam pack is wrung out and the dirty water drains away via the drain.

Suitable for ponds up to 36,000 litres capacity. Supplied with powerful 55W UVC with timer function and 2-year warranty.

SF TOPCLEAR PRO 36.000 UVC-55W.

PondClear Pro 18000

The Pond Clear Pro 18000 is a professional biological pond filter with powerful built-in UVC for clear water and high-quality filter media for optimal filtration.

PondClear Pro 36000

The Pond Clear Pro 36000 is a professional biological pond filter with powerful built-in UVC for clear water and high-quality filter media for optimal filtration.

Professional pond filter with great filter performance. Mechanical filtration with fine and coarse filter foam (the sponges are easy to clean through a sliding system) and biological filtration with Japanese mat and BioBalls! The UVC system is coupled to the outside of the filter tank thus optimising filter capacity!

Unique features: The spiral in the UVC housing exposes the pond water to UVC radiation for longer periods of time for cleaner water. The lid contains a built-in water thermometer and dirt indicator making it convenient to use. The dirt drains at the bottom of the filter making it easy to rinse away dirt and sludge. The multiple hose connection on the outlet (ø 38/50 mm and ø 75 mm) makes connecting a drain hose or plastic pipe of your choice easy!

Suitable for ponds up to 18,000 litre capacity. Supplied with 18W UVC and a 2-year warranty. An optional filter foam cleaning tool makes maintenance even easier and is available from your SuperFish dealer.

Suitable for ponds up to 36,000 litre capacity. Supplied with 36W UVC a handy cleaning tool for cleaning the filter foam and a 2-year warranty.

Natural Salt

Special pond salt without chemical additives. Pond salt has a positive effect on the health of your fish and works preventively against fish diseases.

Administering 1 kg of salt per 1,000 litres of pond water promotes the health of your pond fish and Koi and protects the fish from disease.

Pond Salt is also suitable in higher doses of 3 to 6 KG per 1000 litres of water for the treatment and quarantine of pond fish and Koi. Always read instructions for use and ask your dealer for advice.

Activated Carbon

High-quality filter carbon. Active Filter Carbon absorbs colour and toxic substances from the water in a short time while maintaining a neutral pH value.

Activated Filter Carbon quickly absorbs colour and toxic substances from the water while maintaining a neutral pH value. This activated carbon is phosphate-free which is important because phosphate promotes algae growth!

Place filter media in a filter media bag for easy cleaning and removal.

SF ACTIVE FILTER CARBON BAG 10 LITRE.

S.R.P.

€47,49

8 715897 025501

CrystalMax

Highly porous filter medium made of glass. It acts as a sponge for micro-organisms and guarantees optimal results.

Wastes and pollutants are broken down very effectively by the aerobic (oxygen-rich) and anaerobic (oxygen-poor) filtration processes.

Place filter media in a filter media bag for easy cleaning and removal.

SF CRYSTALMAX BAG 10 LITRE.

Bio-Balls

Highly porous filter medium made of glass. It acts as a sponge for micro-organisms and guarantees optimal results.

Bioballs offer maximum bacteria adhering surface. They are highly abrasion-resistant and have an unlimited lifespan.

With its unique "hedgehog" design Bioballs offer the maximum achievable bacterial adhesion surface for the growth of beneficial bacteria.

Place filter media in a filter media bag for easy cleaning and removal.

Energy Guide.

We have the solution for your customers, they can start saving today!

- Check the energy consumption of the old pond pump.
- SuperFish PondEco pond pumps have the latest energy-saving technology for the lowest possible consumption at the highest possible performance.
- SuperFish PondEco pond pumps are also attractively priced for low depreciation.
- Saving 10 Watts of power = € 35 per year!*

Annual savings are calculated with the pump operating 24 hours a day, for 365 days a year, with a price of €0.40 per kWh**.

*10 Watts x 24 hours x 365 days = 87,600/1000 = 87.6 kWh per year. 87.6 x € 0,40 = € 35,04

** Power tariff online for new contracts in the Netherlands & Belgium 31-8-2023

Advise your customers our energy-efficient pumps and start saving power now!

Model	Maximum pump capacity	Power
PondEco 2900	3.500 L/h	14 Watt
PondEco 4900	5.300 L/h	29 Watt
PondEco 8500	7.800 L/h	41 Watt
PondEco 12500	11.200 L/h	85 Watt
PondEco 15500	15.000 L/h	130 Watt

Model	Maximum pump capacity	Power
PondECO Next 3500	3.500 L/h	14 Watt
PondECO Next 5000	5.000 L/h	22 Watt
PondECO Next 8000	7.800 L/h	36 Watt
PondECO Next 10.000	9.200 L/h	52 Watt

Pond Flow Eco.

Energy-efficient and multifunctional pumps. Suitable as a fountain pump, filter pump or as a pump for a watercourse or a water ornament. Available in 5 models and with a pump capacity of 600, 1,000, 2,000, 2,900 or 4,900 litre per hour respectively.

Energy-efficient pond pump for fountains and simple pond filters.

Pump capacity 650 L/h, consumption 8W, Max. head 1.2m, outlet 20mm, 10-metre cable, TUV approval and 2-year warranty, dimensions L x W x H 13 x 7.5 x 8.3 cm.

Pump capacity 1000 L/h, consumption 12W, Max. head 1.4m, outlet 20/25/32mm, 10-metre cable, TUV approval and 2-year warranty, dimensions L x W x H 14.2 x 7.5 x 8.3 cm.

Pump capacity 2000 L/h, consumption 25W, Max. head 1.9m, outlet 20/25/32mm, 10-metre cable, TUV approval and 2-year warranty, dimensions L x W x H 17.4 x 8.5 x 10.4 cm.

Pump capacity 2900 L/h, consumption 45W, Max. head 2.3m, outlet 20/25/32mm, 10-metre cable, TUV approval and 2-year warranty, dimensions L x W x H 20.9 x 9.4 x 12.7 cm.

Pump capacity 4900 L/h, consumption 95W, Max. head 3.3m, outlet 25/32/40mm, 10-metre cable, TUV approval and 2-year warranty, dimensions L x W x H 23.5 x 11 x 14.7 cm.

PondEco Next.

Pond Eco Next, our most economical electronic pond pumps. Perfect for filtration and water movement with the lowest possible energy consumption. Complete with a new motor ensuring a very good performance, a very large head, optimal dirt transport and has a long service life. Supplied with a 2-year Pick-up & Replace warranty for maximum security and worry-free use.

Maximum pump capacity with an extremely low energy consumption (4 Watts per 1,000 L/h), the pond pump that deserves a green label! The vortex blades transport dirt particles up to 6 mm has multi-step hose connections, double ceramic-hardened gears and thermal protection against overload. Can be used in dry operation and as an underwater pump.

Pump capacity 3500 L/h, consumption 14W, Max. head 2m, outlet 25/32/40mm, 10-metre cable, TUV approval and supplied with 2-year unique Pick-up & Replace warranty!

Optional PondEco Next Controller

With the optional Pond Eco Next Controller you control the pump output in 10 steps by remote control. The water volume can be adjusted to your liking and save additional energy by regulating your pump back in the winter months. The Pond Eco Next Controller can be purchased from your SuperFish dealer.

PondEco Next Controller

Controller for the PondECO Next. With this controller and remote control you switch the pump on and off, and regulate the power of the pump, this allows you to save extra energy!

With the remote control, you regulate the pump output and thus the water flow in 10 steps. In this way, you can control the flow as you wish and save additional energy, for example by regulating your pump back during the winter months.

The controller is water splash proof and should therefore be installed in a dry location so that it is not submerged in water or puddles in the garden or pond. There is no guarantee against damage caused by water.

New!

Controller with remote control for the SuperFish POND ECO NEXT 3500, 5000 and 8000, 2-year warranty, water damage excluded.

Pump & UVC Clean

Powerful descaler for cleaning your pond pump and UVC, for efficient operation, longer life and retention of warranty.

SuperFish Pump & UVC Clean is natural acid that dissolves limescale and cleans your pump and quartz glass.

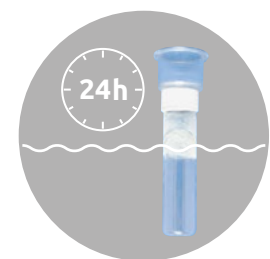

Regular cleaning of your pond pump and UVC is necessary, scale deposits make it easier for dirt and algae to adhere to your pump, causing wear and tear. In the case of your UVC, limescale deposits on the quartz glass reduce the permeability of the UV light.

Contents 1 litre, clean pumps and UVC at least every spring and autumn, in areas with calcareous water this will be necessary more often, read the instructions for use before use!

SF PUMP & UVC CLEAN 1.000 ML.

S.R.P.
€12,99

Art. no.: 07070500

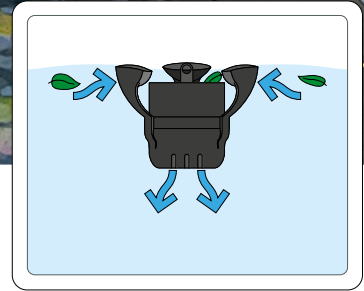

SuperFish Pump & UVC Clean is a natural acid that dissolves limescale and cleans your pump and quartz glass in 24 hours.

Pond Skim.

Pond Skim

The SuperFish pond skimmer floats in the pond and sucks up dirt such as leaves, dust and algae from the water surface. For a clear and healthy pond.

For a clean water surface in the pond, easy to clean thanks to the removable waste grid.

Pond Skim 2000, pump capacity 2,000 L/h, 25W, suitable for ponds up to 25 m², 2-year warranty.

Pond wall mounting

Automatic adjustment to the water level

Spiral pond hose

Special reinforced hose for connecting pond pumps to pond filters, waterfalls and water figures.

The reinforcement in the hose prevents the hose from kinking and blocking the flow of water.

To secure the hose, use SuperFish spiral hose clamps, which are specially designed and prevent damage and leakage of the hose.

Spiral hose clamps

Hose clamp for securing a pond spiral hose.

This hose clamp prevents damage to the spiral hose, never use an ordinary flat hose clamp on spiral hose!

Universal UV PL lamp, fits all brands of UV devices with a standard lamp.

Visit www.aquadistri.com. In our pond catalogue for our UV pointer there you will find information on which lamp fits which device.

Replace the UVC lamp annually, preferably in spring for optimal operation. The fact that a bulb is burning does not mean that it still has useful radiation, as the UV radiation decreases and is no longer effective after 8000 burning hours.

Pond LED lighting.

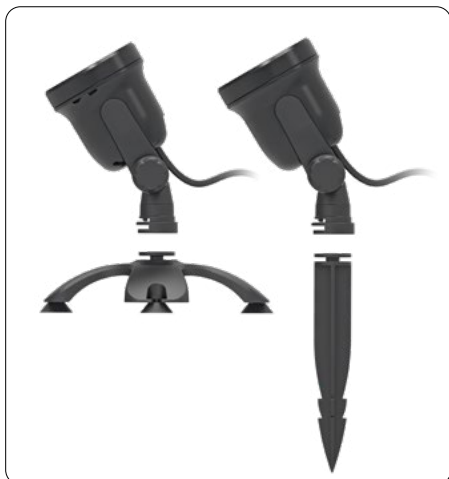

Powerful outdoor LED spotlights for the garden and in the pond!

Pond Power LED

Add atmosphere to your garden and pond with these energy-saving pond spotlights. Powerful outdoor LED spotlights for the garden and pond! Sturdy aluminium housing, equipped with interchangeable stable base and ground pin.

Suitable for outdoor and underwater use. The LEDs provide a very bright beam and are fully waterproof (IP68).

The optional SuperFish Twilight Sensor automatically switches the LED lighting on when it gets dark outside and off again when it gets light, saving energy.

Pond Power LED 3W

LED Spot consumption 3W, comes with 4 interchangeable colour lenses to adjust the colour as desired and 10-metre cable, 2-year warranty.

SF POND POWER LED 3W.

S.R.P.
€39,99

Fix & Seal

Fix and Seal is a high-quality, universal adhesive sealant based on MS polymer technology. Suitable for bonding and sealing virtually all materials and substrates (both porous and non-porous): including glass, natural stone, concrete, wood, metals, tiles, etc. Especially for pond and garden.

Elastic adhesive for pond, garden and aquarium, easily seals everything, also sticks underwater, replaces and combines assembly adhesive, wood adhesive, PU adhesive, silicone sealant, acrylic sealant, butylene sealant, etc.

Permanently elastic, UV- and weather-resistant, temperature resistant from -40 to +90°C, excellent adhesion without primer, paintable.

Black Sealant, contents 290ML, processable between 5 and 40°C. Limited shelf life after opening. Not suitable for PE, PP and bitumen.

SUPERFISH FIX & SEAL 290ML BLACK.

€77,49

Art. no.: 06080120

8 715897 246562

Choose the correct pump

(pump not included): The pump choice depends on the height of installation of the Waterfall Filter, the more difference between the water level and the waterfall the more power is needed. The proper position of the pump is in the lowest part of the pond, as far as possible from the waterfall outlet.

We advise the usage of **SuperFish Pond ECO Next Pumps**, these energy saving pumps also offer good filtration.

Height above pond level	pump min.	pump max.	recommended pump
0-50 cm	2.000 l/h	4.000 l/h	PondECO Plus E 3500 - 5000
50-100 cm	3.000 l/h	6.000 l/h	PondECO Plus E 5000 - 8000
100-150 cm	5.000 l/h	10.000 l/h	PondECO Plus E 8000 - 10000

Decorative Amphora water ornament and filter for placement on the edge of the pond, for returning pond water from your pump or pressure filter without unsightly hose over the pond edge. The waterfall also has a calming effect. Made of a durable synthetic resin.

Use, connect a pond pump with hose to the Multi-step hose connector (hose diameter Ø40/32/25 mm) or connect the decoration with pond report to the outlet of a pressure filter.

The decoration also works as a simple biological filter. You can add additional media to the filter chamber, the removable lid makes the filter foam easy to clean.

Powerful, compact and versatile pond vacuum. Easily remove sludge and debris from your pond or dirt and wetness in and around house and garden.

Continuous suction, long water and vacuuming techniques. Efficiently removes sludge and debris from ponds, lakes and streams. Works in and out of ponds and gardens.

Appliqueur de bassin puissant, compact et polyvalent. Facile à utiliser pour nettoyer le bassin et les alentours. Fonctionne aussi bien en intérieur qu'en extérieur.

4 accessoires, compacts et polyvalents. Nettoyent efficacement les bassins et les alentours de votre maison.

Power: 1200W
Tank: 25L
Suction: 1.2 metres
Suction hose: 5 metres
Suction tube: 1.8 metres

Pond Multi Vac

The Pond Multi Vac is a powerful pond vacuum for removing dirt from the pond and can also be used for removing dirt in and around the house. For pond cleaning, the Pond Multi Vac comes ready-to-use with all parts. For removing dirt in and around the house, buy the optional dust filter for motor protection.

When using the pond function, you fill the tank with dirt and pond water, this way you refresh pond water right away, the water drains out of the tank via the drain hose, this water can be used for plants and as organic fertiliser.

Supplied complete with suction hose, 4-part handle, suction nozzle, sponge filter and drain hose.

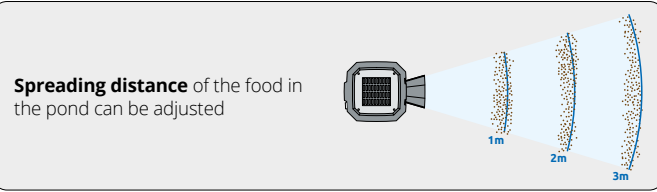

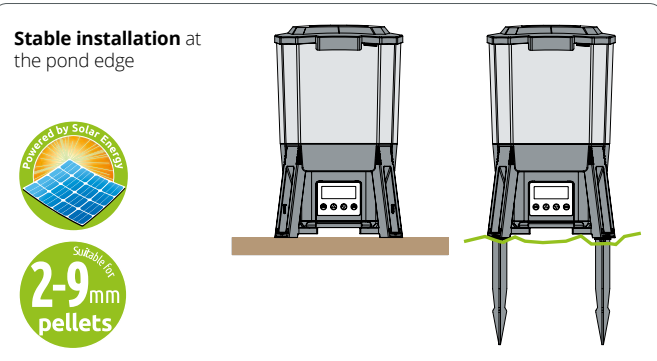

Power 1200W, holding tank 25L, cord 3.5m.

Solar Fish Feeder

Solar-powered feeder to automatically feed your fish several times a day. Energy is generated by the solar panel on the lid and stored in the battery. Fully charged this Fish Feeder can be used for up to about 3 months without sunlight.

The dosing time per feed is adjustable up to 6 times per day. The spreading distance is also adjustable (1, 2 or 3 metres) with a spread of 120 degrees. The amount of feed depends on the type and weight of the feed, minimum approx. 30 grams at 1 second feeding up to 250 grams per feeding at 20 seconds feeding.

Regularly feeding smaller amounts of food is better for the health of your fish. This ensures maximum fish growth and beautiful colouring. You will also prevent unnecessary water pollution and reduce the load on the filter.

The handy insert makes this feeder suitable for small (S) and medium (M) feed pellets. Feed chamber capacity 6 litres, supplied complete with ground pegs for sturdy mounting, 1-year warranty.

Bird & Cat Protector

Motion detector activated ultrasonic pond protector. Detects unwanted visitors and harmlessly chases them away with an alarm, ultrasonic sound and/or flashing lights (LED). Easy installation: Place the Bird & Cat protector near your pond, charge the batteries and select an ultrasonic sound frequency.

Environmentally friendly, solar-powered, built-in solar panel and 3 x AA rechargeable batteries, batteries can also be charged with the USB cable. Choice of 5 alarm functions, the Ultrasonic sound is not or barely audible to humans.

Easy installation: Place the Bird & Cat Protector near your pond, charge the batteries and choose a desired alarm mode.

Splash-proof (IP44), 1-year warranty.

SF BIRD&CAT PROTECTOR.

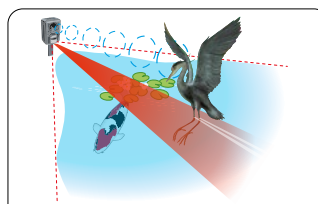

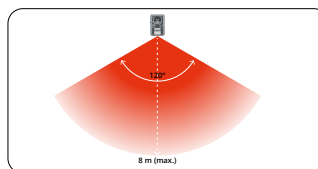

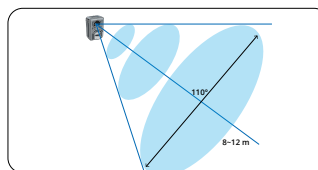

S.R.P.

€39,99

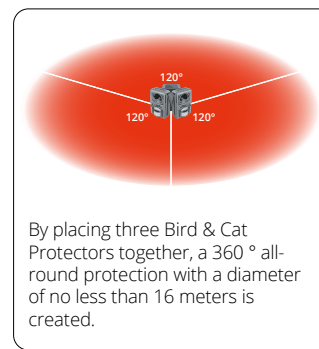

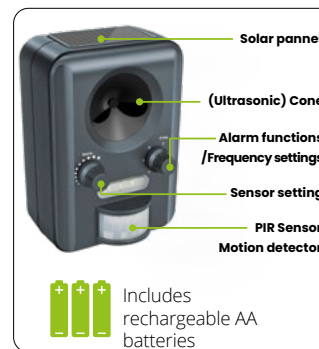

Art. no.: 06090110

8 715897 308444

As soon as a heron gets to the pond, the alarm will sound and the bird will be chased away.

By placing three Bird & Cat Protectors together, a 360° all-round protection with a diameter of no less than 16 meters is created.
